A Call From Joe

The first five paragraphs of this editorial were written while waiting for traffic signals to turn from red to green on Southwest Second Street, at West Avenue A and Southwest Avenue B.

The idea came for it at the intersection of Northwest Second Street and West Canal Street North, while waiting for that traffic signal to turn green.

There's an old joke that irritation is when a stranger calls you at 3 a.m. and asks for Joe; that aggravation is when a second stranger calls ten minutes later and asks for Joe and frustration is when you get a third call in another five minutes to hear someone say. This is Joe. Any Calls?'

Well, Joe just called.

We came to the conclusion a long time ago that there is no way in the world, short of breaking the law, to fynchronize out card's speed to the first two traffic say. And if a motorist can make it through all three, without having to wait at one of them, he's beaten odds that would break the bank at Monite Carlo.

One initial reaction is to wonder why the city doesn't synchronize the blankety-blank lights but Police Chief-Charles Goodlett said that has been ruled out in the past because of the high cost.

Very well.

But the city is paying Kimley-Horn and Associates of

Chartes Ucounter same past because of the high cost. Very well.

But the city is paying Kimley-Horn and Associates of West Palm Beach some \$30,000 to do a traffic study of the city, albeit the funds are coming from the state, and if synchronization is too expensive, something else should be done.

Farmer's Farewell

It is a sad time. Another pioneer of the Glades, Donald W. (Pee-Wee) Kirchman died in his sleep late Tuesday afternoon. Pee Wee had lived in the Glades for So Pee Wee had lived in the Glades for them. Like most pioneer belle Glade 52 of them. Like most pioneer help to be the so that the same that he was one of the "little men" who made it possible for this country to become as great as it has become. He helped feed the nation just like thousands of other farmers around the United States did. When it became less and less popular to be a farmer, he stuck with it. He along with the other pioneer farmers in the area laid a strong foundation for the growth of the Glades.

our budget needs for the year 1974-75 in the amount of \$113,000.00. The amount to be raised locally is \$28,000.00. This constitutes a slight increase over the budget of the current year due largely to salary increases for our staff which area necessary because of the continuing rise in the living costs.

It's a bit difficult with the tenses here, writing about something before it happens, when it won't see the light of print antil after the fact.
If you haven't followed me so far-don't worry-I just reread it and I don't understand it either. But then, the state be the state to the st

couple, more, years in the past tew months.

Resully, what can you say, or do, I figured it out the other day—if the rest of the road is built under the same time schedule as the first half mile it would be four-laned somewhere around the year 2154.

Prop't ask, me for the mathematical british is given in the proper confusing than this column. Bratish is well as the result of the proper confusing than this column. Reatly, I've about given upon the DOT and State Rd. 80. The federal government can spend \$80,000 or so for the Postmaster General to send stamps to his friends, but they can't spend anything to save a few lives.

While it doesn't play as much importance for Belle Glade as State Rid. 80 does, it does kill and injure a lot more people.

The family took e trip this past weekend to Highhands Hannock State Park just outside of Sebring. To get there you travel almost the entire way via U.S. 27. And except for a very short stretch the other soid of Palmdale, it is four-laned all the way. It makes for a nice trip and the park is really a treat. But the old saying about "small word, iang tit's stands up for the nature trails in the park as well. Here we are, back is the swamps walking on a small wooden platform two feet wide and barely above the two feet wide and barely above the two feet wide and barely above the chusband Phil who works for Kelly Tractor. They had their three children along with them and were thoroughly enjoying the peace and serenity of the park.

It's only 100 miles away. This means you can get there and back on a tank for gas if you drive the speed limit.

HEADQUARTERS Res: 863-7787

COACH WILLIAM DENNY RECEIVED A SOUL SHAKE FOR A TROPHY last meek when he named Anthony Wilson Wrestler of the Year for the Raiders.

Glades Central scored another first in its rather short life span by staging a Field Day for all of the students last

nursday.

Among the events were contests like the Egg Throw, where a team of a boy and a girl tosa en egg back and forh catching it, they move back 5 yards.

There was only one

between each other. It each success an catching it, they move back 5 yards. until someone misses it.

There was only one problem here. The property of the property of the property of the problem of the problem of the ground. It was harder than they imagined and as a result they only had four eggs left after the event-and one of them cracked at that. Imagine trying to toss a cracked egg and catching it without it breaking! Jones, since he was on the track team, he wasn't allowed to compete because they were afraid he would break an arm. But you can't blame him when he hollered about not being able to participate in the relay. Speaking of the relay, a lot of kids had sore feet after running because of going barefoot on that asphalt. That's enough to tear anyone's feet up after going on it at full speed.

The property of the property

through the pool looking for the coins.
As you can see by the pictures, flour went everywhere. Soon the contestants and some of the bystanders were and some of the bystanders were white. Whoever found the dime came in first place, the nickel was second, and the penny was third. And of course, it left one of the students out in the cold.

The one who put the events together really had some original minds such as the sack race. Sure the sack race kare the sack race. Sure the sack race has seen the sack of the sack race and the sac

Last week I mentioned something about an exercise class might be started but sorry to tell you grisl who might have become interested in it-the plans fell through.

We were going to try to use the Glades Central's gymnasium but it seems the school wouldn't let us since it wasn't a school functioned activity. But don't give up hope yet. We're still trying to work out a way to have it after all. I'll let you know if anything develops.

Many a man has determined to be free to do as he pleased, only to find himself in bondage to habits that were loathsome even to himself. The only true freedom in the world is the freedom to do right. We find that freedom is surrender to the Christ. Otherwise we are, as Jesus said, "Sheep without a shepherd," You know what happens to sheep without a shepherd; they wander off aimlessly. and become prey for the predators

You Can Believe in Dreams

And God came as an infant, lived as a man and brought belief to dreams of everlasting life.

Centuries ago men dreamed of an in-dependent America, founded on faith and dedicated to democratic ideals.

And menubelieved in this dream and took action. They declared independence, and wrote the Constitution of the United States.

Decades ago pioneers dreamed of towns and villagers dreamed of cities, and was you help others realize their dreamed of cities, and worship this week.

Everything we have and hold deer to-day started as a dream. Our gracious homes. Our multiple churches. Our busy shopping centers. Our hospitals, our new inns and motels.

Yes, we can believe in dreams. Your dream of everlasting life. Your dream of a greater America. Your dream of a growing community. Your dream of yourself as part of it all.
